

The STRATISIAN Diagnostic Model

Stratiscore - Structural
Health Score

**Most SMEs scale
reactively.**

Stratiscore diagnoses
structural readiness
before growth.

We evaluate structural readiness across six pillars:

	Financial Discipline
	Customer Engine
	Operations Reliability
	Leadership & Accountability
	Digital & Data Maturity
	Governance & Risk Readiness

1

Financial Discipline

Cash flow hygiene, unit economics, receivables, payables discipline.

2

Customer Engine

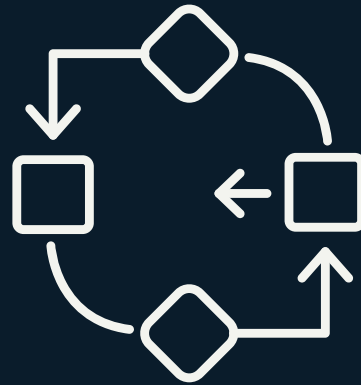

ICP clarity, predictable demand, conversion consistency.

3

Operations Reliability

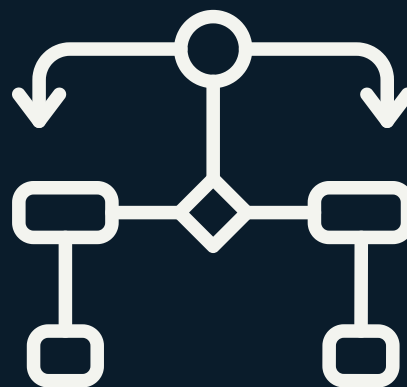

SOP maturity, predictable turnaround, consistency in delivery.

4

Leadership & Accountability

Role clarity, measurable KPIs, delegated decision making.

5

Digital & Data Maturity

Dashboards, automation,
workflow transparency.

6

Governance & Risk Readiness

Compliance,
documentation,
contingency planning.

Scoring Framework

**Stratiscore = Sum of 6
pillars**

Total out of 30

Score	What It Means
24-30	Strong foundation - scale confidently
18-23	Structurally sound - fix leakage before scale
12-17	Fragile - needs systemisation
0-11	High structural risk - immediate intervention

**Healthy scale isn't courage.
It's preparation.**

**Stratiscore makes it
predictable.**

STRATISIAN

Strategy.
Structure.
Scale.
